1. About the call

Doc's Kingdom - International Seminar on Documentary Film is accepting international applications to select the programmer of the 2023 Edition, which will take place in the municipality of Odemira - Portugal, from November 30 to December 5. Applications can be sent until August 10, 2023.

2. About the Seminar

Doc's Kingdom - International Seminar on Documentary Film has been organized since 2000 by Apordoc - Associação pelo Documentário. Every year it brings together around 100 participants and 10 guest filmmakers from all over the world in an intensive and immersive program. For a week - and outside their usual contexts - participants divide their time between daily film sessions followed by discussions, the encounter with the territory it takes place, the local community and its natural and cultural heritage.

For more than 20 years, Doc's Kingdom has created a unique context for training several generations of filmmakers, film enthusiasts, and people interested in thinking about the world through cinema. To promote intergenerational dialogues and encourage the engagement of new audiences, Doc's Kingdom brings together established and young filmmakers, an international community of curators, artists, programmers, distributors, critics and researchers. Each Seminar is a unique journey that proposes a dialog between the authors present and a collective and horizontal debate open to all participants.

3. Guiding principles of the 2023 Program

Doc's Kingdom 2023 seeks to develop a program that intertwines contemporary issues and challenges through critical, authorial and inclusive perspectives of cinematic practices.

The Seminar aims to stimulate a program interested in addressing technologies, corporealities, bio-logics or diverse notions of time and space and reflect on the intersections and multiple narratives of film production.

Established and/or emerging programmers can participate in the public call without restrictions on nationality or country of residence.

In search of a collaborative integration and the establishment of creative links between the programming, the direction and the local community that holds the Seminar, the candidate must be available to spend periods in Lisbon and/or Odemira from September to November 2023 (on dates to be agreed), in addition to being in Portugal between November 20 and December 6, 2023.

The full Seminar Program will be developed by the selected candidate, based on the Project proposed in this Call and in dialogue with the Doc's Kingdom director, as part of the 2023 Edition actions, which include engagement with the local community and the Alentejo territory.
